LOCAL EXCHANGE SERVICE

LIFELINE AND DISABLED PROGRAMS+

A. General Regulations

1. Lifeline and Disabled service is a discounted voice telephony service available to qualifying residential subscribers.+
2. The monthly discount will be the maximum amount allowed by the Missouri Public Service Commission and the Federal Communications Commission; however, this discount will not exceed the sum of the federal subscriber line charge and the recurring charges for voice telephony service. The monthly discount will be the same for Lifeline and Disabled customers solely subscribing to voice telephony service and for Lifeline and Disabled customers subscribing to a bundle of services.+
3. A Lifeline or Disabled subscriber's voice telephony service will not be disconnected for non-payment of charges unless the subscriber fails to pay charges directly related to voice telephony service.+
4. Lifeline service is available with optional toll blocking or toll limitation service restricting access to 1+, 0+, and 0- dialed calls at no charge.
5. Participants are limited to one program benefit per household. Subscribers cannot receive additional discounts for service from another provider. Subscribers may not receive discounts from both the Lifeline and Disabled programs.+
6. Program requirements are identified in the Missouri Public Service Commission rules.+

NOV 7 1996

+ MISSOURI SCHOOL DISCOUNT PROGRAM

MISSOURI
Public Service Commission

1. A discount from standard monthly rates for local exchange business service may be allowed in connection with service furnished through the Missouri School Discount Program, pursuant to the Video Instructional Development and Educational Opportunity Program, as enacted by the Missouri State Legislature.
2. Upon the customer's request, a discount of twenty percent (20%) from standard monthly access line rates may be allowed to educational institutions within the Company's certified area, as determined by Paragraph 3, following.
3. An educational institution shall be defined either as an accredited public school, or a private school which is tax exempt pursuant to 26 U.S.C. 501(c)(3). Persons operating home schools, as defined in 167.031 RSMo, shall not be eligible for this school discount program. Public Schools must be accredited by the Department of Elementary and Secondary Education for the State of Missouri and/or the North Central Association of Colleges and Schools.
4. The qualifying discount will be permitted only on the local exchange access line. All other features, ancillary services or options, relative to the particular service, shall continue to be billed at the appropriate tariffed rates.
5. The qualifying discount will be permitted only where the predominant use is providing educational and instructional programs and for the educational institutions administrative use. The discount is not allowed to residential complexes associated with the institution.
6. In addition to meeting the qualification specified in Paragraph 3 preceding, an eligible customer must sign an affidavit certifying that the qualification is met. The affidavit will be retained on file with the Company.
7. The customer should request to receive the discount on all subsequent additions of eligible services which are ordered. There will be no additional affidavits required.
8. The following local exchange services are eligible for a discount under this program:

Flat Rate, business one-party service.

Public Service Commission

GENERAL REGULATIONS

1. Application of Regulations

- A. The regulations set forth herein apply to intrastate services and facilities furnished within the state of Missouri by Mid-Missouri Telephone Company hereinafter referred to as the Company, subject to the jurisdiction of the Missouri Public Service Commission.
- B. When services and facilities are provided in part by the Company and in part by other companies, the regulations of the Company apply to that portion of the service or facilities furnished by it.

2. Undertaking of the Company

- A. The Company does not undertake to transmit messages, but offers the use of its facilities, where available, for communication between parties subject to the terms and conditions specified in these tariffs.

3. Applications for Services

- A. Applications for service may be made orally or in writing.
- B. Any change in rates or regulations prescribed by the Missouri Public Service Commission modifies the terms and regulations of contracts to the extent of such change.

4. Applications of Business Rates

- A. Business rates apply in offices, stores, factories, and all other places of a strictly business nature.

4. Applications of Business Rates

- B. In boarding houses (except as noted under 5.B) offices of hotels and offices of apartment buildings, quarters occupied by clubs or lodges, public, private, or parochial schools, or colleges, hospitals, libraries, churches, college fraternity houses, and other similar institutions (but excluding dormitory rooms at such schools or colleges).
- C. At residence locations when the customer has no regular business telephone and the use of the service either by himself, members of his household, or his guests, or parties calling him can be considered as more of a business than of a residence nature, which fact might be indicated by advertising, either by business cards, newspapers, hand bills, billboards, circulars, motion picture screens, or other advertising matter, such as on vehicles, etc., or when such business use is not such as commonly arises and passes over to residence telephones during the intervals when, in compliance with the law or established custom, business places are ordinarily closed.
- D. Where the place of business and residence of a customer are in the same premises and no telephone is installed in the place of business, the business rate shall be charged for the telephone installed in the residence.
- E. At residence locations, when an extension station or extension bell is located in a shop, office, or other place of business.
- F. At any location where the listing of service at that location indicates a business, trade or profession, except as specified below.

Section 2
3rd Revised Sheet 5
Canceling 2nd Revised Sheet 5

GENERAL REGULATIONS

5. Application of Residence Rates

- A. Residence rates apply in private residences where business alphabetical or classified telephone directory listings are not provided. *
- B. In private apartments of hotels, rooming houses, or boarding houses where service is confined to the customer's use, and elsewhere in rooming houses which are not advertised as a place of business or which have less than five rooms for roomers or which furnish meals to less than ten boarders, provided business telephone directory listings are not furnished. *
- C. In the places of residence of a clergyman and in the place of residence of a physician, dentist, veterinarian, surgeon or other medical practitioner, provided the customer does not maintain an office in the residence. In the residence of a Christian Science practitioner, nurse or midwife, or in the office of any of this group of persons, provided the office is located in the customer's residence and is not part of an office building. In any of such cases the listing may indicate the customer's profession, but only in connection with an individual name. If listings of firms or partnerships, etc, or additional listings of persons not residing in the same household are desired, business rates apply. *
- D. Where the place of business and residence of a customer are in the same premises and no telephone is installed in the place of business, the business rate shall be charged for the telephone installed in the residence. *

6. Advance Payments

- A. At the time an application for service is made, an applicant may be required to pay an amount equal to at least one month's service and/or installation charges which may be applicable, in addition to such special construction and installation charges as are to be borne by the applicant. The amount of the advance payment is credited to the customer's account on the first bill rendered.
- B. Federal, State or Municipal governmental agencies may not be required to make advance payments.

2nd Revised Sheet 5.1
Canceling 1st Revised Sheet 5.1

GENERAL REGULATIONS

7. Establishment of Credit – Residence Service

A. In order to insure the payment of all charges due for its service, the Company may require any customer to establish and maintain his credit. If he cannot show evidence of a satisfactory payment record for prior telephone service, the following criteria will be applied:

1. Home ownership, excluding mobile homes.
2. Existence of a checking account, regardless of age.
3. Existence of a savings account, regardless of age.
4. Motor vehicle ownership.
5. Full time employment more than two years with current employer.
6. Applicant being 50 years of age.
7. Possession of a recent charge card.
8. Possession of a major national charge card.
9. Possession of a major oil company credit card.
10. An existing loan from a financial institution not considered delinquent by the creditor.

A positive response to any two of the above criteria makes a deposit unnecessary.

8. Right of Refusal

A. The Company reserves the right to refuse service to any applicant that is indebted to the Company for service previously furnished until arrangements for the payment of the indebtedness satisfactory to the Company have been established. The Company may also refuse to furnish service to any applicant when it appears to the Company the applicant desires to, or may, establish, furnish, or provide service to a former customer of the Company indebted to the Company for previous service, until arrangements for the payment of the indebtedness satisfactory to the Company have been established.

+8. Deposits and Guarantees of Payment – Residence Services (Continued)

+C. No deposit, guarantee, additional deposit, nor additional guarantee shall be required by a telecommunications company because of race, sex, creed, national origin, marital status, age, number of dependents, source of income or geographical area of residence.

+D. A deposit shall be subject to the following terms:

+1. It shall not exceed estimated charges for two (2) months service based on the average bill during the preceding twelve(12) months or in the case of new applicants for service, the average monthly bill for subscribers within a customer class;

+2. It shall bear interest at a rate which is equal to one percent (1%) above the prime lending rate as published in the *Wall Street Journal*. This rate shall be adjusted annually on December 1 using the prime lending rate, as published in the *Wall Street Journal* on the last business day of September of each year, plus one percent (1%). The interest shall be credited annually upon the account of the customer or paid upon the return of the deposit, whichever occurs first. Interest shall not accrue on any deposit after the date on which a reasonable effort has been made to return it to the customer. Records shall be kept of efforts made to return a deposit;

+3. Upon discontinuance or termination, it shall be credited, with accrued interest, to the charge stated on the final bill and the balance, if any shall be returned to the customer within twenty-one (21) days of the rendition of such final bill;

+D. (Continued)

- +8. The Company shall permit a customer to post a deposit required as a condition of continued service in two (2) equal monthly installments or as otherwise agreed upon. The Company may bill these installments as a line-item on customer bills.
- +E. In lieu of a deposit the Company may accept a written guarantee. The guarantee shall not exceed the amount of a cash deposit that the Company could request under this section.
- +F. A guarantor shall be released upon satisfactory payment of all undisputed charges during the last twelve (12) billing periods. Payment of a charge is satisfactory if received prior to the date upon which the charge becomes delinquent provided it is not in dispute. The Company shall provide to the Commission upon request credit criteria and screening procedures, and standardized record keeping and verification procedures for uncollectable accounts.
- +G. The Company may request an advance payment for the limited purpose of security payment of installation charges, if applicable for that customer, and estimated charges for one (1) month of service requested by the customer.

Original Sheet 6.3.1

GENERAL REGULATIONS

+8.1 Deposits and Guarantees of Payment – Business Service

- +A. If it is deemed necessary by the Company in safeguarding its interests, applicants for service or present customers may be required to make a deposit of an amount not to exceed two (2) months exchange service charges plus two (2) months estimated long distance service charges, to be applied in payment of any unpaid charges for exchange or long distance service which may be rendered. Interest shall be applied in a manner consistent with residential customers.

- B. The Company is not obligated to establish, furnish or continue to furnish service to any individual or firm that owes for service previously rendered at the same or a different address, until arrangements have been made to liquidate such previous indebtedness to the Company. In order to insure the payment of all charges due for its service, the Company may require any customer to establish and maintain his credit.

GENERAL REGULATIONS

RECEIVED

8.1 Deposits and Guarantee of Payment - Business Service (Continued)

NOV 19 1997

- C. An applicant for service, or a present customer, may satisfy a deposit requirement by providing a Contract of Guaranty in an amount not less than the requested deposit from a present customer acceptable to the Telephone Company. The guaranty contract shall be on a form provided by the Telephone Company which shall include the Company's right to transfer charges to the limit of the guaranty, from a defaulted bill of the customer, from whom a deposit or a Contract of Guaranty was required, to the guarantor's account or accounts and the further right to suspend the guarantor's service.
- D. The fact that a deposit has been made, or a guaranty provided, shall in no way relieve the customer from complying with the Telephone Company's regulations as to the prompt payment of bills, nor constitute a waiver or modification of the regular practices of the Telephone Company providing for the temporary suspension of service or the termination of the service contract for non-payment of bills.
- E. Service may be discontinued for failure to furnish a suitable deposit, when conditions appear to require the Telephone Company to have such credit protection, after the Telephone Company has furnished five days' written notice to the customer requiring the customer to furnish such deposit. If, in the judgment of the Telephone Company, unusual risk of financial loss exists, service may be suspended after forty-eight hours written notice has been furnished to the customer.
- F. Any balance of the amount deposited and credited to the customer's account is returned to the customer at the termination of the contract, or it may be returned at any time previous thereto at the option of the Telephone Company when it is deemed that the customer has established satisfactory credit.
- G. A service deposit will not be required for Lifeline service, if the qualifying low-income customer voluntarily elects toll blocking, where available. If toll blocking is unavailable a service deposit may be charged.

GENERAL REGULATIONS

+9. Discontinuance of Service – Residence Service

+A. Telecommunications service may be discontinued for any of the following reasons:

- +1. Nonpayment of a delinquent charge except as limited by sections B., D., and E., of this section;
- +2. Failure to post a required deposit or guarantee;
- +3. Unauthorized use of the Company equipment in a manner which creates an unsafe condition or creates the possibility of damage or destruction to such equipment;
- +4. Failure to comply with terms of a settlement agreement;
- +5. Refusal after reasonable notice to permit inspection, maintenance or replacement of the Company equipment;
- +6. Material misrepresentation of identity in obtaining the Company's service;
or
- +7. As provided by state or federal law.

+B. Basic local telecommunications service may not be discontinued for customer nonpayment of a delinquent charge for other than basic local telecommunications services. The failure to pay charges not subject to commission jurisdiction shall not constitute cause for a discontinuance of basic local telecommunications service.

+C. The Company may place global toll blocking and eliminate any optional, non-basic calling features and functions for customer nonpayment of delinquent charges for other than basic local telecommunications service.

GENERAL REGULATIONS

+9. Discontinuance of Service – Residence Service Continued)

+D. Subject to the requirements of this section, service may be discontinued during normal business hours on or after the date specified in the notice of discontinuance. Basic local telecommunications service shall not be discontinued on a day when the offices of the Company are not available to facilitate reconnection of basic local telecommunications service or on a day immediately preceding such day.

+E. Telecommunications service shall not be discontinued under Section (2)(A) unless written notice by first-class mail is served on the customer at least ten (10) days prior to the date of the proposed discontinuance. Service of notice by mail is complete upon mailing. As an alternative, the Company may deliver a written notice by hand to the customer at least ninety-six (96) hours prior to discontinuance.

+F. A notice of discontinuance shall contain the following information:

- +1. The name, address and telephone number of the customer;
- +2. A statement of the reason for the proposed discontinuance and the cost for reconnection;
- +3. The date after which service will be discontinued unless appropriate action is taken;
- +4. How a customer may avoid the discontinuance;
- +5. The customer's right to enter into a settlement agreement if the claim is for a charge not in dispute and the customer is unable to pay the charge in full at one time;
- +6. The telephone number where the customer may make an inquiry;
- +7. A statement that this notice will not be effective if the charges involved are part of an unresolved dispute; and
- +8. A statement of the exception for medical emergency under section (2)(9.H).

GENERAL REGULATIONS

+9. Discontinuance of Service – Residence Service (Continued)

- +G. At least twenty-four (24) hours preceding a discontinuance of basic local telecommunications service, the Company shall make reasonable efforts to advise the customer of the proposed discontinuance and what steps must be taken to avoid it. Reasonable efforts shall include either a written notice in addition to the notice required in section (2),(9.E.), a door hanger or at least one (1) telephone call attempt to reach the customer.
- +H. Notwithstanding any other provision of this section, the Company shall postpone a discontinuance for at least twenty-one (21) days if service is necessary to obtain emergency medical assistance for a person who is a member of the household where the telephone service is provided and where such person is under the care of a physician. Any person who alleges such emergency, if requested, shall provide the Company with reasonable evidence of such necessity.
- +I. Upon the customer's request, the Company shall restore service consistent with all other provisions of this section when the cause of discontinuance has been eliminated.
- +J. Payment by personal check may be refused if the customer, within the last twelve (12) months, has tendered payment in this manner and the check has been dishonored, except when the dishonor is due to bank error.

GENERAL REGULATIONS

+12. Customer Billing

- A. The customer is responsible for all charges in conjunction with the services furnished him including collect toll messages which have been accepted at the customer's telephone.
- B. Monthly recurring charges are billed in advance and long distance toll charges are billed in arrears. Special billing arrangements may be established for services provided to governmental agencies.
- C. Bills are due when rendered unless otherwise specified on the bill and may be paid at any business office of the Company or at any agency authorized to receive such payments.
- D. For billing purposes each month is presumed to have thirty days.
- E. Retroactive billing and adjustments will not be made for a period exceeding three (3) years.
- +F. The Company may temporarily suspend service in the event the customer fails to pay the amount due. Such suspension shall not be made until the customer has received prior notice as set forth in section (2)(9.E.).

+G. Customer Disputes

- +1. A customer shall advise The Company that all or part of a charge is indispute by written notice, in person or by a telephone message directed to The Company during normal business hours. A dispute must be registered with The Company prior to the delinquent date of the charge for a customer to avoid discontinuance of service as provided by these rules.

GENERAL REGULATIONS

+12. Customer Billing (Continued)

+G. Customer Disputes (Continued)

- +2. When a customer advises The Company that all or part of a charge is in dispute, The Company shall record the date, time and place the inquiry is made; investigate the inquiry promptly and thoroughly; and attempt to resolve the dispute in a manner satisfactory to both parties.
- +3. Failure of a customer to cooperate with The Company in efforts to resolve an inquiry which has the effect of placing charges in dispute shall constitute a waiver of the customer's rights to continuance of service under this chapter.
- +4. If a customer disputes a charge, the customer shall pay an amount to The Company equal to that part of the total bill not in dispute. The amount not in dispute shall be mutually determined by the parties. The parties shall consider the customer's prior usage, the nature of the dispute and any other pertinent factors in determining the amount not in dispute. The Company shall not discontinue service to a customer for nonpayment of charges in dispute while that dispute is pending.
- +5. If the parties are unable to mutually determine the amount not in dispute, the customer shall pay to The Company, at The Company's option, an amount not to exceed fifty percent (50%) of the charge in dispute or an amount based on usage during a like period under similar conditions which shall represent the amount not in dispute. The Company shall not discontinue service to a customer for nonpayment of charges in dispute while that dispute is pending.

GENERAL REGULATIONS (Continued)

23. Obligation of the Company for: (Continued)

C. (Continued)

e. Liability for failure to provide service.

f. Liability for telephone directories is covered elsewhere in this Section under Directories.

24. Special Construction

A. Private Property

1. An average amount of entrance and distribution facilities may be furnished by the Company provided the facilities are of the standard type normally furnished for the particular location or kind of service.
2. If additional entrance or distribution facilities are required; if the conditions are such as to require special equipment, maintenance or methods of construction; if the stability of the customer has not been established; if the installation is for a temporary or semi-permanent purpose or if for any other reason the construction costs are excessive as compared with the revenue to be derived, the applicant shall be required to pay the costs over and above those applicable for a normal installation.
3. The customer will provide the Company without charge written permission for the placing of the Company's facilities on the property.

B. Underground

1. When feasible, conduit will be furnished by the Company at cost, or conduit may be provided by the applicant subject to the Company's specifications. Conduit used for telephone company facilities may not be used for any other purpose without the consent of the Company. The distance between the conduit and any Electric Light or Power Conduit or Conductor shall be in

B. (Continued)

accordance with the Company's specifications. The customer shall be required to pay the entire cost of maintenance of conduit including subsequent excavations and replacements necessary because of damage resulting from negligence on the part of the customer or his representatives or from freezing or improper drainage.

2. The cost of relocating underground entrance facilities at the customer's request will be borne by him.

C. Inside Wiring

1. Normally, inside wiring is exposed. If the customer desires concealed wiring such will be done, if possible, and billed at cost.
2. When the customer provides suitable conduit, molding or other means, the Company will install wiring without extra charges.
3. The customer will assume charges based on cost when installation involves abnormal expense such as drilling walls or concrete floors or providing excessively long circuits.

25. Special Assemblies of Equipment or Speculative Projects

- A. Special assemblies of equipment or speculative projects for which provision is not otherwise made in this tariff may be provided where practicable, if not detrimental to any of the services furnished by the Company.

1. The charge for such facilities may be in the form of an installation charge, a monthly charge, a termination charge or any combination thereof, and will include, when applicable, one or more of the following estimated expense items associated with the special equipment or service provided:

GENERAL REGULATIONS

25. Special Assemblies of Equipment or Speculative Projects (Continued)

1. (Continued)

- a) maintenance expense
- b) depreciation expense - including reuseable and nonrecoverable items
- c) administration expense
- d) taxes - including Federal Income Tax
- e) any other specific items of expense that may be associated with the facility provided
- f) a reasonable return on investment

2. The estimated installation cost used in the derivation of the various expense items shall include the following:

- a) material
- b) material overhead
- c) installation labor
- d) installation labor overhead

B. In connection with Marketing and Sales studies, Marketing and Sales programs, the Company reserves the right to waive service connection charges, move and change charges, and recurring monthly service charges within specified areas for such periods of time as designated by the Company, subject to prior approval by the Missouri Public Service Commission.

26. Advance Wiring

A. Where requested, and while the state of the construction permits, the Company may install concealed inside wiring in single and two-family residences at the charges shown in Section 5. These charges include arrangements for an individual or party line service and extension telephones, and for jacks installed at the outlets either at the time of installing Advance Wiring or when service is established. Where the type of construction in larger residence structures permits, or where more than one line is involved, Advance Wiring will be provided at charges based on the circumstances in each case.

27. Adjustments for Municipality Payments

JAN 25 1977

- A. If at any future time a municipality acquires the legal right to impose an occupation tax, license tax, permit fee, franchise fee or other similar charge upon the Company, and imposes the same by ordinance or otherwise, such taxes, fees or charges shall be billed to the customers receiving service within the territorial limits of such municipality. Such billing shall allocate the tax, fee or charge among customers uniformly on the basis of each customer's monthly charges for the types of service made subject to such tax, fee or charge.

28. Combination Main Station Service

- A. Where an individual or firm wishes to contract for two or more main stations at separate locations and wishes to answer incoming calls for any station at any of the locations the arrangement described below is provided subject to the availability of the facilities necessary to furnish satisfactory service. Outgoing calls can be made from any station so arranged.
- B. Combination main station service may be employed where one station is at business location and the others at residence, or where all stations are at either business or residence locations. However, such an arrangement is permitted only on the premises of individuals or firms associated with each other.
- C. The lines are bridged together so as to operate as one line.
- a. All bells will ring at the same time.
- D. The rate for each main station is the established individual line rate. The business or residence rate is applied in accordance with the character of use at each premise.

29. Connection of Automatic Dialing-Announcing Devices

1. Automatic dialing-announcing devices used for solicitation may not be connected to the telephone network.
2. An automatic dialing-announcing device is any automatic equipment used for solicitation which incorporates the following features:
 - (a) 1. Storage capability of numbers to be called.
 2. A random or sequential number generator that produces numbers to be called.
 - (b) Has the capability, working alone or in conjunction with other equipment, of disseminating a prerecorded message to the number called.

30. Uncollectibles

- A. This company does and will continue to maintain a record of all uncollectible accounts, available by name, with the record containing name, telephone number and amount owed.

31. Customer Owned Equipment Service Charge

- A. A service charge of \$20.00 will be billed to the customer for each repair visit to a customer's premises or service location in connection with a service difficulty when it is determined that the difficulty was due to a condition in customer-provided terminal equipment or a communications system which is arranged for connection to Telephone Company facilities.

+32. Abuse of Equipment

- A. All ordinary expense of maintenance and repair, unless otherwise specified in this Tariff, is borne by the Telephone Company. The customer agrees to take good care of the equipment and facilities connected therewith. In case of damage to or destruction of any of the Company's equipment and facilities not due to ordinary wear and tear, the customer is held responsible for the cost of replacing the equipment destroyed or for the cost of restoring the equipment to its original condition, except where such damage is not occasioned by the negligence of the customer.

33. Sale of Telephone Equipment

A. General

The Company may offer for sale to the ~~general public items of~~ telephone equipment, terminal equipment and telephone accessory equipment that have not been included in Company's Rate Base for regulatory purposes. Applicable warranty coverage, if any, for specific items will be provided by the Company, in a written format, at the time of purchase.

B. Items of Equipment Which May Be Available for Sale

1. Standard Telephone Instruments
2. All Special Telephone Instruments
3. Protective Connecting Arrangements
4. Telephone Related Accessories
5. Special Assemblies - (One of a kind item)
6. Business Telephone Systems (Key, PABX/PBX, and Communication Systems)
7. Other Miscellaneous Terminal Equipment

The Company will periodically review its service offerings to determine whether additional items should be added as salable offerings. At the Company's option, specific customer requests to purchase equipment from the Company will be considered.

34. Sale of Telephone Equipment In-Place

- +A. The Company may offer for sale to the general public items of telephone equipment, terminal equipment, and telephone accessory equipment that is not included in the Company's rate base for regulatory purposes. Applicable warranty coverage, if any, for specific items will be provided by the Company, in a written format, at the time of purchase.
- +B. Embedded telephone sets and ancillary equipment shall be offered for sale. The charge for single line Company owned equipment shall be the net book value plus the cost of the transaction up to December 31, 1987. The minimum charge for multi-line Company owned equipment shall not be less than net book value plus cost of transaction.

DEFINITIONS

DEFINITIONS

ACCESS LINE - A circuit including protection apparatus, drop wiring and lines (circuit) necessary to connect an individual line, party line, private branch exchange switchboard, key system or an intercommunication system customer with a central office. An access line will be terminated in a standard jack, key system or private branch exchange.

ADDITIONAL LISTING - Any listing of a name or information in connection with a customer's telephone number beyond that to which he is entitled without additional charge in connection with his regular service.

AUTHORIZED USER - A person, firm or corporation (other than the customer) on whose premise a telephone, Private Branch Exchange, or private line service or channel is located and who may communicate over such channels in accordance with the terms of the tariff.

BASE RATE - A rate for urban grades of exchange service available to customers located within a base rate area.

BASE RATE AREA - A specific area within which local telephone exchange service, other than rural line service, is furnished at rates quoted on the Local Exchange Service Tariffs without extra Mileage Charges.

BUSINESS SERVICE - Telephone service furnished to customers where the actual or obvious use is principally or substantially of a business, professional or occupational nature.

CENTRAL OFFICE - A switching unit in a telephone system which provides service to the general public, having the necessary equipment and operating arrangements for the terminating and interconnecting customer lines and trunks or trunks only. There may be more than one central office in a building or exchange.

CENTRAL OFFICE LINE - A circuit directly connecting an individual or party line main station, private branch exchange switchboard or an intercommunicating system with a central office.

CENTREX SERVICE - See definition in General Services.

CHANGE CHARGE - The charge a customer is required to pay for a substitution of different type service or a rearrangement of services which does not involve a change in location of the service.

DEFINITIONS (Continued)

RECEIVED

CHANNEL - A path for communication between two or more stations, or Company offices, furnished in such a manner as the Company may elect, whether by wire, radio or a combination thereof and whether or not by a single physical facility or route.

CIRCUIT - A channel used for the transmission of electrical energy in the furnishing of telephone and other communications service.

CLASS OF SERVICE - The various categories of service generally available to the customer, such as business, residential or payphone service.

COMMISSIONS - A percentage of collections paid as a fee in consideration of service rendered to the Company.

COMMON BATTERY SERVICE - Manual or automatic service where the electrical energy is furnished from the central office and where the operator is signaled or dial tone is obtained by lifting the receiver of the calling station.

COMPANY - A corporation, association, partnership, or individual engaged in the business of furnishing telephone service to the public under the jurisdiction of the Missouri Public Service Commission.

CONNECTING COMPANY - A corporation, association, partnership or individual owning or operating one or more exchanges and with who communications traffic is interchanged.

CONNECTOR - See "Switch".

CONNECTION CHARGE - See "Service Connection Charge".

CONSTRUCTION CHARGE - A separate non-recurring charge made for the construction of facilities in excess of that contemplated under the rates quoted in the exchange tariffs.

DEFINITIONS (Continued)

CONTINUOUS PROPERTY - The plot of ground, together with any buildings thereon, occupied by the customer, which is not divided by the public highways or separated by property occupied by others. Where a customer occupies property on both sides of a street, alley, highway, body of water, railroad right-of-way, etc., and the properties would otherwise be continuous, such properties are treated as continuous property provided local wire or cable facilities are used and the customer furnishes all local distribution pole line facilities or underground conduit required in connection therewith.

CONTRACT - Refers to the agreement between a customer and the Company under which service and facilities are furnished in accordance with the applicable provisions of the Tariffs.

CORD SWITCHBOARD - see PBX Service.

COST - The cost of labor and materials, which includes appropriate amounts to cover the Company's general operating and administrative expenses.

CUSTOMER - The individual, partnership, association or corporation which contracts for telephone service and is responsible for the payment of charges and compliance with the rules and regulations of the Company.

DEMARCATIION POINT - The point of connection, provided and maintained by the telephone company, at which the station wiring becomes dedicated to an individual customer's use. For an individual customer dwelling this point of connection will generally be the modular jack incorporated into the customer side of the Network Interface Device (NID). The drop wire and the network protector will continue to be provided by, and remain the property of, the telephone company. The demarcation point is usually the point at which the telephone company wiring connects with the customer's wiring.

DIAL SWITCHING EQUIPMENT - A unit of electro-mechanical or electronic switching equipment used in Central office or in connection with a private branch exchange system.

DIRECTORY LISTING - A publication in the Company's alphabetical directory of information relative to a customer's name or other identification and telephone number.

DROP WIRE - That portion of a circuit between the pole line or cable distributing box and the building in which the station or switchboard is located.

MISSOURI

DEFINITIONS (Continued)

Public Service Commission

DEFINITIONS (Continued)

ENTRANCE FACILITIES - Facilities extending from the point of entrance on private property to the premises on which service is furnished.

EXCHANGE - A basic geographical unit established for the administration of telephone service in a specified area, called the "Exchange Area", which usually embraces a city, town or village, and its environs. It may consist of one or more central offices, together with the associated plant, equipment, and facilities used in furnishing communication service within that area.

EXCHANGE AREA - The territory served by an exchange.

EXCHANGE LINE - Any circuit directly or indirectly connecting an exchange station with a central office.

EXCHANGE SERVICE - The furnishing of facilities for the telephone communication within an exchange area, in accordance with the regulations and charges specified in the Local or General Exchange Tariffs. Exchange facilities are used to establish and maintain connection between an exchange station and the other telephone plant and facilities in connection with toll calls, or extended area service calls.

EXCHANGE STATION - A station connected directly or indirectly with a central office of the Company over its own lines.

EXTENDED AREA SERVICE - Interexchange telephone service furnished at flat or message rate between one or more exchange areas.

EXTENSION AND P.B.X. STATION MILEAGE - the charges made for the additional circuit required to furnish such stations beyond the allowable distance from the main station or P.B.X. switchboard.

EXTENSION BELL - A bell on the same circuit and operated in connection with the signalling device of the primary, extension, or private branch exchange station.

DEFINITIONS

EXTENSION LINE - A circuit connecting a primary station with an extension station, or a circuit connecting a private branch exchange station with a private branch exchange switchboard. An extension line may terminate on a key in lieu of an instrument.

EXTENSION STATION - See Telephone Station.

EXTRA DIRECTORY LISTING - See Additional Listing.

FLAT RATE SERVICE - Service furnished at a fixed monthly charge, including extended area service where applicable.

FOREIGN ATTACHMENT - Lines, instruments, appliances or apparatus not owned or furnished by the Company.

FOREIGN CENTRAL OFFICE - Any central office other than that which serves the area in which the customer is located.

FOREIGN EQUIPMENT - See Foreign Attachment.

FOREIGN EXCHANGE LINE MILEAGE - The measurement applying to that portion of a central office line connecting a customer with a foreign central office, from the common boundary line to the customer's station, for which a monthly charge is made in addition to the base rate for exchange service.

FOREIGN EXCHANGE SERVICE - Telephone exchange service furnished to a customer through a central office of an exchange other than the exchange regularly serving the area in which the customer is located.

GRADE OF SERVICE - The term used in describing exchange service with respect to the number of main telephones which may be connected to a central office line. (One-Party).

DEFINITIONS (Continued)

INDIVIDUAL LINE - An exchange line designed for the connection of one main station. (Not a private branch exchange trunk line.)

INITIAL SERVICE PERIOD - The minimum length of time for which a customer is obligated to pay for service, facilities, and equipment, whether or not retained by the customer for such minimum length of time.

INSTALLATION CHARGE - A charge made for the furnishing of telephone equipment, which may apply in place of or in addition to Service Charges and other applicable charges for service or equipment.

INSTRUMENTALITIES - The station equipment used to provide communication service to the customer.

INTERCOMMUNICATING SYSTEM - An arrangement consisting of two or more stations, each such station being equipped with a switching device by means of which user can signal and connect with any other station in the system.

JACK AND PLUG EQUIPMENT - Equipment designed to give access to a line at one or more points by means of a portable telephone equipped with a cord and plug to connect jacks bridged to the line.

JOINT USER SERVICE - An arrangement whereby an individual, firm or corporation whose telephone needs are not such as to justify the provision of separate customer service is permitted to use the service of a customer.

KEY EQUIPMENT - An arrangement of equipment, using keys and associated wiring, to provide various supplemental services in connection with telephone stations.

KEY TELEPHONE SET - A telephone set equipped with keys or buttons in the mounting.

LINE FINDER - See Switch.

LOCAL CHANNEL - Applies to that portion of a channel which connects a station to an interexchanging channel. A channel connecting two or more stations within an exchange area.

LOCAL EXCHANGE SERVICE - Telephone communication within Exchange Areas in accordance with the provision of the Company's Tariffs. **NOV 19 1997**

LOCAL MESSAGE - A completed communication between customer's stations located within the same Exchange Area. **LOCAL MESSAGE SERVICE COM**

LOCAL SERVICE AREA - The area within which telephone service is furnished under a specific schedule of rates without the application of specific charges for each message.

LONG DISTANCE TERMINAL - See Telephone Station.

MAIN STATION - See Telephone Station.

MESSAGE - A completed customer telephone call.

MESSAGE RATE SERVICE - A service for which charges are based upon the number of originated messages placed by the customer to stations within the same local or message rate calling area.

MILEAGE - The measurement upon which charges are computed for extension, tie and private lines.

MINIMUM CONTRACT PERIOD - The minimum length of time for which a customer is obligated to pay for service, facilities and equipment, whether or not retained by the customer for such minimum length of time.

MOBILE TELEPHONE SERVICE - A communication service provided by means of radio frequencies through a land radiotelephone base station. Connections may be established between a wire station and a mobile or fixed unit or between two mobile or fixed units.

QUALIFYING LOW-INCOME SUBSCRIBER - A "qualifying low-income subscriber" is a subscriber who participates in one of the following programs: Medicaid; food stamps; supplemental security income; federal public housing assistance; or Low-Income Home Energy Assistance Program. *

DEFINITIONS (Continued)

RECEIVED

MORSE CHANNEL - A channel not connected with the general telephone exchange system, and of the type which may be derived from telephone wire facilities by simplexing, compositing, and other methods of similar character, and equipped with instruments used in sending Morse Code or equipped with instruments other than telephone or telephone typewriter equipment, depending for their operation upon the variation of the flow of electrical energy, according to a specified plan or code.

JAN 15 1997
MISSOURI
PUBLIC SERVICE COMMISSION

MOVE CHARGE - The charge a customer is required to pay when, at his request, his service is continued under the same or superseding contract at a different location on the same premises.

NETWORK INTERFACE DEVICE (NID) - A device wired between the telecommunications protector and the inside wiring to isolate the customer's equipment from the network. *

NON-RECURRING CHARGE - A one-time charge associated with certain installations, change or transfer of services, either in lieu of or in addition to recurring monthly charges.

OPERATOR'S SET - A head set used by an operator at a switchboard or console consisting of a receiver, transmitter and necessary cords.

PORTABLE TELEPHONE SET - A telephone set equipped with cord terminating in a plug.

PREMISES - The buildings, portion or portions of a building on continuous property used and/or occupied at one time by the customer in the conduct of his business or as a residence. Where floor space in adjoining buildings is made continuous at one or more floor levels, all floor space in both buildings is considered as the same premises insofar as the customer who used and occupies such continuous floor space is concerned, the two buildings otherwise being considered as separate buildings.

except for the purpose
of canceling this tariff.

Section 3
Original Sheet 15

DEFINITIONS (Continued)

PRIVATE BRANCH EXCHANGE SYSTEM - An arrangement of equipment, contracted for by a customer, consisting of switching apparatus with attendants' telephone, trunks to a central office and stations connected with the switching apparatus, thereby providing for telephonic intercommunication between these stations, and also communication with the general exchange system, and the toll plant in connection with toll calls. Throughout this Tariff, the commonly used abbreviation "P.B.X." will be substituted for the words Private Branch Exchange.

- A. **P.B.X. Trunks:** A circuit connecting a P.B.X. system with a central office.
- B. **P.B.X. Stations:** Any station (including the operating set or sets) connected directly or indirectly with a P.B.X. system.
- C. **Switchboards:** Switchboards are classified as follows:
 - 1. **Cord Switchboard:** A switchboard on which all lines terminate in jacks, interconnection of stations and of stations and trunk lines is established manually by means of cords equipped with plugs.
 - a. **Multiple Cord Switchboard:** A cord switchboard arranged so that each line may have two or more appearances or jack terminations.
 - b. **Non-multiple Cord Switchboard:** A cord switchboard arranged so that each line has only one appearance or jack termination.
 - 2. **Cordless Switchboard (Key Switchboard):** A switchboard on which all lines terminate on keys which may be used to establish interconnection of stations, and of stations and trunk lines.
 - 3. **Dial Switchboard:** A switchboard on which interconnection of stations, and of stations and trunk lines is established by means of dialing.
- D. **Battery Power:** Power furnished for talking and for operating lamp or visual signals and relays.

TELEPHONE STATION (Continued)

- a. Toll Station: A station installed for the convenience of the public or of a customer in a locality where the Company does not generally furnish exchange service and from which established toll rates are charged for all originated messages.
- b. Toll Terminal: A station, or a terminal on a private branch exchange switchboard, and the associated exchange circuit connecting the station or terminal directly with a toll switching office. (Also known as Long Distance Terminal.)
2. Extension Station: An additional station connected on the same circuit as the main station and having the same telephone number as the main station.
3. Private Branch Exchange Station: Any station (including the operator's set or sets) connected directly or indirectly with a private branch exchange system.
- A. Service Station: A station or one of a group of stations which, under arrangements made by the service station customers, receive service from a Company central office over facilities provided in part by the Company.

TELETYPEWRITER - A teletypewriter consists of apparatus designed for the sending and receiving, or receiving only, of typewritten messages transmitted electrically.

TERMINATION CHARGE - A charge applied under certain conditions, when a contract for service is terminated by the customer before the expiration of the minimum contract period.

TIE LINE - A circuit connecting two private branch exchange systems for the purpose of interconnection between the stations connected with such systems.

TIE LINE MILEAGE - The measurement on which the rates for tie lines connecting customer's switchboard is based.

TOLL BLOCKING - Toll blocking is a service provided by carriers that lets customers elect not to allow the completion of outgoing toll calls to the Long Distance Message Telecommunications Network, this would include 1+ calls.

TOLL LINE - A circuit used exclusively for the transmission of message between points located in different exchange areas where specific charges for each such message are applicable.

TOLL MESSAGE - A message between stations in different exchange areas and furnished under the provisions of the applicable toll tariff.

- A. **APPOINTMENT CALL TOLL MESSAGE** - A toll message in which the user stipulates a desire for communication with a specified person or persons, at a specified time only.
- B. **MESSENGER SERVICE TOLL MESSAGE** - A toll message on which, at the request of the calling party, the Company arranges for a messenger to notify a person at the called address to go to a telephone.
- C. **PERSON TO PERSON TOLL MESSAGE** - A toll message in which the user stipulates a desire for communication with a specified person or extension station at a specified toll point.
- D. **STATION TO STATION TOLL MESSAGE** - A toll message in which the user stipulates a desire for communication only with a specified telephone or switchboard.
- E. **COLLECT MESSAGE** - A toll message in which the user stipulates that he called party accept the pay all charges associated with the message.
- F. **THIRD NUMBER** - A toll message in which associated charges are billed neither to the calling station, nor to the called station, but rather to a station not involved in the message.
- G. **CREDIT CARD** - A toll message in which associated charges are billed to a credit card number assigned by a telephone company and issued to either the called or calling party.

TOLL RATE - The initial period charge prescribed for toll messages usually based upon the duration of the initial period and distance between exchanges.

Payphone Service

JAN 15 1997

A. General Regulations

1. Payphone Service includes lines to which coin, coinless, card reader or a combination coin/card reader telephones may be attached.
2. Payphone Service is a two-way or, optionally, one-way originating only business exchange access line composed of the serving central office line equipment, all outside plant facilities needed to connect the serving central office with the customer's premises, and the Network Interface Device at the demarcation point. These facilities are Company-provided and maintained and provide access to and from the telecommunications network for long distance service and local calling.
3. In the case of one-way service, intercept treatment will be provided.
4. A maximum of one customer-provided instrument may be connected to any one Instrument or CO implemented coin line.
5. General Rules and Regulations found in other sections of this tariff are applicable to the provision of Payphone Service.
6. Directory listings may be provided under the regulations governing the furnishing of listings for business subscribers.
7. A Network Interface Device will be installed at a location mutually agreed upon by the Payphone Service Provider and the Company. The Network Interface Device is a company-provided jack or its equivalent. It is the point of connection between the telephone company owned wiring and wiring owned by the Customer.
8. One directory will be distributed to the Payphone Service Provider without charge for each payphone business exchange line.
9. Installation Charges and the appropriate Network Interface Device (NID) material charge are applicable for the installation, move or rearrangement of the NID on the customer's premises to establish or reestablish network access.

Payphone Service (Cont'd)

REC'D MAR 11 1999

A. General Regulations (Cont'd)

10. Installation Charges and the appropriate NID material charge apply when a premises visit is made for the sole purpose of installing a customer requested NID.
11. The Company shall not be liable for shortages of coins collected and deposited at the subscriber's equipment. The limit of the Company's liability for end user fraud of whatever nature occurring at or in association with the subscriber's equipment shall be governed by provisions of this Tariff and rule or regulations of the Missouri Public Service Commission. In case of conflict between the tariff provisions and Commission rules and regulations, the rule or regulations shall prevail.
12. Off-Premise Extensions are not permitted.
13. Hold For Future Use +
14. The Multiline Business Subscriber Line Charge, found in the interstate access tariff, is applicable to all payphone Instrument and CO Implemented coin lines.

B. Responsibility of the Customer

1. The Customer for the purposes of this tariff is defined as the Payphone Service Provider.
2. The customer shall be responsible for the installation, operation and maintenance of the customer-provided instrument, plus all ancillary equipment, such as booths, shelves, lighting, directories, etc., used in connection with this service. The customer is responsible for complying with the requirements set forth in the American With Disabilities Act of 1990.

The customer-provided instrument must be registered in compliance with Part 68 of the FCC's Registration Program. In addition, the customer must comply with the Missouri Public Service Commission's Rules and Regulations regarding the use of customer-provided pay telephones.

Public Service Commission

3. The customer shall be responsible for the payment of charges for all local and toll messages originating from or accepted at this type of service, including any Directory Assistance Calls.
4. The customer shall be responsible for obtaining a Certificate of Service Authority (CSA) to provide Payphone Service and for providing proof of said authority prior to installation of service.
5. Customers who elect not to subscribe to Selective Class of Call Screening will be fully responsible for all calls billed to customer's exchange access line. The Telephone Company shall have no responsibility to adjust any such charges and/or release customer from paying any such charges. Customer will hold the Telephone Company harmless from and against any liability or loss resulting from all calls billed to customer's exchange access line.
6. Any federal, state, or local taxes on the Customer Owned Pay Telephone or calls made from that phone are the responsibility of the customer.
7. The customer shall not program or cause to be programmed any such telephone used in connection with this service to limit the duration of a local message.

C. Violation of Regulations

1. Upon notification from the Company that the customer-provided equipment or inside wire is causing or is likely to cause harm, the customer shall make such change as is necessary to remove such harm. Failure to make such change will result in the disconnection of service until such change is completed to the satisfaction of the Company.

C. Violation of Regulations (Cont'd)

2. The customer may be required, as a condition of service, to pay in full all bills due the Company including, but not limited, customer activity charges, termination charges, minimum charges, and reimbursement for loss or damage to Company facilities as may apply.

D. Instrument Implemented Payphone Service

Instrument Implemented Payphone Service is offered for use with a customer provided pay telephone. All attachments of a customer provided instrument to the network must be made pursuant to the rules and regulations set forth in this Tariff and as required by State and Federal commissions.

E. Central Office (CO) Implemented Coin Line

1. Central Office Implemented Coin Line provides coin signaling. It is a line side connection from the local exchange switch to the point of demarcation at the customer premise.
2. Features are additives to the operation of a flat rate access line that provide for CO Implemented coin line service. The Company offers those features that are provided by the functionality of the Company's switches. These include coin supervision, coin control (collect and return of coins, if applicable), and answer supervision. CO implemented coin line features that are implemented by the functionality of an operator service provider, such as coin rating, coin refund, repair referral, and operator call screening, are the responsibility of the Payphone service provider (Customer).
3. CO Implemented Coin Line features, including coin line signaling, coin collect and return (where applicable) and answer supervision, are provided by the Telephone Company per the technology available from the Company's facilities. It shall be the responsibility of the CO Implemented Coin Line payphone owner to assure technical and operational compatibility with the coin line features offered by the Telephone Company.

Payphone Service (Cont'd)

JAN 15 1997

F. Features and Functions

1. Answer Supervision provides signaling on the line notifying the line that the called party has answered. This feature is an additive to the CO Implemented Coin Line.
2. Coin Collection and Return provides an electrical signal on a CO Implemented Line indicating to the payphone equipment to collect coin(s) from or return coin(s) to the calling party. This feature is an additive to the CO Implemented Coin Line.
3. Special Number Assignment is a specific number requested by the customer. This service is available where facilities are accessible and it is technical feasible to provide. This feature is an additive to the CO Implemented Coin Line or to the Instrument Implemented Payphone Service.
4. Selective Class of Call Screening will be provided where such facilities are available at the customer's option. Selective Class of Call Screening treatment enables the customer to restrict outgoing operator-handled calls, placed over the Telephone Company's network, from the service point to only those calls which are charged to a called telephone, a third number or a calling card.
5. Validation may be performed through Originating-Line Screening (OLS). OLS enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned payphones, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available. The customer has the option to request either Selective Class of Call Screening or OLS.

GENERAL SERVICES

Custom Calling Service

A. General

1. Custom Calling Service consists of one or more of the following features which provide special kinds of customer-controlled communications features on individual service lines. Custom Calling Service is available only through central offices which, at the Company's option, are appropriately equipped. Operating specifics may vary by central office equipment type but can be described generally as:

a. Call Waiting--Provides a signal to a customer using the telephone that another call is being attempted to his number. The customer can "hold" the original call to answer the incoming call. Cancel Call Waiting allows a subscriber to cancel his/her Call Waiting feature for the duration of a call. Upon release of that call, the Call Waiting feature is again implemented.

+b. Call Forwarding--Permits all calls directed to a customer number to be routed on to another dialable number, predetermined and activated by the customer. (See NOTE)

The Remote Access to Call Forwarding feature allows a user at a remote location to activate/deactivate the Call Forwarding feature. The user gains remote access to the Call Forwarding feature from a touch-tone telephone at a remote location. The Remote Access Call Forwarding feature uses an announcement system to provide interactive voice message prompting, which allows customers to verify the forwarded-to directory number. This verification process eliminates the need for successful completion of a courtesy call.

+c. Call Forwarding Busy—The Call Forwarding Busy Line feature allows all calls to a busy Directory Number to be forwarded to another Directory Number. The Call Forwarding Busy Line feature is active on the base Directory Number once the feature is assigned. When a call is made to a busy Directory Number with this feature, the call is routed to the specific remote station. This applies to calls originating within as well as outside the terminal group. When a call is made to an idle base station with this feature, the call is handled as a normal terminating call.

NOTE: The grade of transmission on calls forwarded and three-way calling may vary upon the distance and routing required to complete such calls; therefore, the normal grade of end-to-end transmission can not be guaranteed on such calls.

Custom Calling Service (Continued)

A. General (Continued)

- +d. Call Forwarding Don't Answer—The Call Forwarding Don't Answer feature (also referred to as Call Forwarding Don't Answer All Calls), permits all calls attempting to terminate to an idle Directory Number to ring that Directory Number a specified number of seconds, and if the call is not answered, to route the call to another customer-specified Directory Number.
- e. Three-Way Calling--Allows for the addition of a third number to a connection made between two numbers without the assistance of a company operator. (See NOTE)
- f. Speed Calling 8--Permits customer calling to other telephone numbers through the dialing of a code rather than an entire telephone number. Capacity is 8 numbers dialable by a one-digit speed dialing code.
- +g. Speed Calling 30 -- Permits customer calling to other telephone numbers through the dialing of a code rather than an entire telephone number. Capacity is 30 numbers dialable by a two-digit speed dialing code.
- +h. Direct Connect--Allows a user to signal and be automatically connected to another station by removing the handset from the switch hook. When a Direct Connect user goes off-hook, a call is automatically originated to the pre-selected number using speed calling without any additional action by the Direct Connect User.
- +i. Distinctive Ringing

This service is primarily intended to meet the needs of the residential subscriber or small business desiring multiple Directory Numbers assigned to one telephone line.

NOTE: The grade of transmission on calls forwarded and three-way calling may vary upon the distance and routing required to complete such calls; therefore, the normal grade of end-to-end transmission can not be guaranteed on such calls.

rather than installing additional lines. Distinctive ringing is limited to four distinctive ringing/call waiting tone patterns per line. Other possible applications include the following:

- Families with teenagers – This feature allows family members to determine for whom a call is intended. This provides household members with the convenience of avoiding calls not designated for them. The teenagers could also have their own listing in the printed directory.
- Roommates or doctors/lawyers who want separate numbers – Multiple Directory Numbers allow separate numbers and separate directory listings for each person without the expense of an additional line.
- Emergency alerting – By providing an additional number to be used only in urgent situations or only by a select few, a customer can determine the purpose of the call or from whom the call originated.

B. Conditions

1. Custom Calling Service may be provided on individual lines, Private Branch Exchange trunks and key business lines and may not be provided in conjunction with coin telephone services.

C. Special Promotions

The Telephone Company may, during certain promotional periods, waive the non-recurring charge and/or monthly rates for a specific period of time to a customer who wishes to participate.

Any promotional waiver or discounted rate will apply only one time per customer for each service in any given wire center prefix during the course of the promotional period.

The Company will notify the Commission in advance of these promotions and will supply copies of customer notification in order to obtain their approval.

GENERAL SERVICES

Missouri Public
Service Commission

REC'D NOV 25 1998

CLASS SERVICE

Custom Local Area Signaling Services (CLASS) are a set of advanced call management features which will not be activated on certain FX lines, COCOT, and Public Coin Telephone Services. CLASS features may be offered in conjunction with Enhanced Business Services (EBS)¹ and consists of one or more of the following features:

Automatic Callback	Selective Distinctive Alert
Automatic Recall	Selective Call Acceptance
Calling Number Delivery	Selective Call Forwarding
Calling Name Delivery	Selective Call Rejection
Customer Originated Trace	Unidentified Call Rejection
Directory Number Privacy	

A. CLASS Service Description

1. Calling Number Delivery

Calling Number Delivery allows the subscriber, with the use of a display phone or adjunct device, to view the directory number of an incoming call before answering. Calling party information may indicate the Directory Number of the calling party or may indicate that the number of the calling party is private or unavailable.

+2. Caller Number Delivery on Call Waiting

Caller Number Delivery on Call Waiting allows calling name/number information to display on off-hook analog lines receiving an incoming call. When the subscriber receives a call waiting tone, caller ID data including name and number is displayed on the subscriber's customer premise equipment (CPE). The subscriber may then ignore the waiting call or flash to answer it.

3. Automatic Call Back

This feature enables the user to automatically place a call to the last incoming calling directory number of the terminal. The user dials the Automatic Callback access code

Enhanced Business Service, also known as Centrex Service, is a package of enhanced features offered to business customers with two or more touch tone access lines.

GENERAL SERVICES

REC'D NOV 25 1998

CLASS SERVICE (Continued)

A. CLASS Service Description (Continued)

3. Automatic Call Back (Continued)

*69 from a Touch Tone phone (1169 rotary dial), an announcement indicating that the Automatic Callback feature has been accessed along with the last incoming call directory number (if not marked Private) is played. After being prompted by an announcement, a user may press "1" to finalize the request or hang up to cancel the request. If the user chooses to invoke Automatic Callback and the call cannot be completed immediately because the called directory number is busy, the Automatic Callback feature enables the calling terminal to camp-on (camp-on is defined as having the network monitor the busy/idle status of the called address) to the last incoming calling directory number. When both lines are available, the calling subscriber is notified by a distinctive ring that the network is ready to place the call. When the subscriber picks up the telephone, the call is automatically placed (*89 to cancel).

4. Automatic Recall

This feature enables a user to automatically place a call to the last outgoing calling directory number associated with the terminal. The last outgoing calling number is defined as the address of the last party called by a user of the calling terminal. If the call cannot be completed because the called directory number is busy, then the Automatic Recall feature enables the calling terminal to camp-on (camp-on is defined as having the network monitor the busy/idle status of the called address) to the last outgoing calling directory number by dialing the access code *66 from a Touch Tone phone and (1166 rotary dial). When both the calling directory number and the last outgoing calling directory number are found to be idle, the calling terminal is given Automatic Recall ringback. If the ringback/notification is answered, then the last outgoing calling directory number is alerted. The calling terminal may cancel Automatic Recall activations at any time during the delayed processing phase by dialing the access code *86 from Touch Tone phone (1186 rotary dial).

5. Calling Name Delivery

The Calling Name Delivery feature delivers the name associated with the calling number (via an external database query) to called subscribers possessing special analog

CLASS SERVICE (Continued)

A. Class Service Description (Continued)

5. Calling Name Delivery (Continued)

customer premise equipment. The monthly charge for Calling Name Delivery includes 250 name deliveries (external database queries). Additional queries are billed at the rate set forth in Section D.

6. Customer Originated Trace

This feature allows an end-user to request an automatic trace of the last incoming call. This provides an easy way to trace obscene, threatening, or harassing calls. After hanging up on a nuisance call, a user can invoke Customer Originated Trace by going off-hook, receiving dial tone, and then dialing the Customer Originated Trace access code *57 on Touch Tone phone (1157 rotary dial).

If the incoming line history block contains valid information about the last calling party, the user receives a confirmation announcement including instructions on following up on the trace request. If a call is traced that has been traced before, the user still receives the confirmation announcement. The customer using the feature would be required to contact the local authorities or police for further action. The customer is not provided the traced number. The results of a successful trace will only be provided to legal authorities with proper authorization.

If the customer makes or receives another call before activating the trace, or if the Call Waiting feature is activated prior to activating the trace, the Customer Originated Trace Feature will not record the correct number.

Customer Originated Trace will trace only those calls which are originated from a location served by the CLASS network. A per activation charge applies to each successful activation of this feature.

7. Selective Distinctive Alert

This feature allows residential and business users to pre-select which calls receive distinctive alerting treatment based on the telephone number of the calling party (up to

calling directory numbers). Distinctive Ringing is limited to four Distinctive Ringing/Call Waiting tone patterns per line. To access this feature, a user picks up the telephone and dials the Selective Distinctive Alert access code *61 from a Touch Tone phone (1161 rotary dial) and follows the recorded instructions. If the user is not assigned the feature or cannot access the feature, the user receives reorder or the local exchange carrier standard announcement indicating that the feature cannot be accessed.

8. Selective Call Acceptance

This feature allows customers to accept incoming voice calls only from certain calling parties (up to 10 calling directory numbers). To access this feature, a user picks up the phone and dials the Selective Call Acceptance access code *64 from a Touch Tone phone (1164 rotary dial) and follows the recorded instructions. If the user is not assigned the feature or cannot access the feature, the user receives reorder or a telephone company standard announcement indicating that the feature cannot be accessed.

9. Selective Call Forwarding

This feature allows users to pre-select calls that will forward based on the telephone number of the calling party (up to 10 directory numbers). To access this feature, a user picks up the telephone and dials the Selective Call Forwarding access code *63 from a Touch Tone phone (1163 rotary dial) and follows the recorded instructions. If the user is not assigned the feature or cannot access the feature, the user receives reorder or a telephone company standard announcement indicating that the feature cannot be accessed.

If the Selective Call Forwarding feature is off, an announcement informs the user to press "3" to turn the feature on. If the user chooses to edit the screening list, the user can add, remove or review the entries currently on the list through interactive announcements.

CLASS SERVICE (Continued)

A. Class Service Description (Continued)

10. Selective Call Rejection

This feature screens terminating calls using user-specified screening list (up to 10 calling directory numbers). To access this feature, a user picks up the telephone and dials the Selective Call Rejection access code *60 from a Touch Tone phone (1160 rotary dial) and follows the recorded instruction. An incoming call from one of those 10 numbers is rerouted to a recorded message and your phone does not ring.

11. Unidentified Call Rejection

Unidentified Call Rejection automatically blocks any unidentified calls without ever ringing at the called party's telephone number. To activate this feature, a user picks up the telephone and dials the Unidentified Call Rejection access code *77 from a Touch Tone phone (1177 rotary dial). The calling party will receive a recorded announcement, the called party does not accept unidentified calls and suggests the calling party unblock delivery of the callers telephone and redial. The user can deactivate this feature by dialing the access code *87 from a Touch Tone phone (1187 rotary dial).

B. General Regulations

1. CLASS features can be provided on a stand alone basis or may be enhanced by use with Custom Calling Service features (Section 4, Sheets 6 - 7).
2. CLASS features are provided from specially equipped Telephone Company Central Offices and enable customers to access various features by dialing specific codes on either a rotary dial or Touch Tone calling basis.
3. The customer of record will be responsible for all rates and charges associated with the CLASS features as described in Rates and Charges. The customer of record will be charged for all features activated on his/her service and charged the applicable monthly subscription rate for each line on which a CLASS feature is provided.

CLASS SERVICE (Continued)

B. General Regulations (Continued)

4. CLASS features are available to customers who have rotary or Touch Tone service for calls within the CLASS Calling Service area. Customers with rotary service can access CLASS features by dialing "11" instead of "*".
5. A CLASS customer may employ available CLASS features only under the following conditions:
 - a. When both the CLASS customer and the other party involved in the call are served from the same central office, even if the other party does not subscribe to a CLASS feature.
 - b. When both the CLASS customer and the other party involved in the call are served from different central offices which are linked by facilities that can handle the delivery of the calling number, even if the other party does not subscribe to CLASS.
6. Customer Originated Trace will be billed a per activation charge as shown in the Rates and Charges section only when the attempt to trace and record the calling telephone number is successful. The results of a successful trace will only be provided to legal authorities with proper authorization. The Telephone Company will not be liable for damages if, for any reason an attempt is not successful.
7. The liability of the Telephone Company is as specified in the General Regulations section of this tariff. In addition to the provisions of the General Exchange Tariff, the calling party of customer releases and holds the Company harmless from any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the transmission to a calling number delivery of a telephone number which the calling party has requested to be omitted from the telephone directory or has requested not be disclosed to any person
8. CLASS features will only be offered with one-party service, compatible PBX equipment and EBS. CLASS features cannot be activated for multi-party lines, certain FX lines, COCOT lines, Public and Semi-Public Coin Telephone Service.

CLASS SERVICE (Continued)

B. General Regulations (Continued)

Calling Number Delivery is the only feature currently available on PBX equipment. Selective Call Acceptance and Selective Call Forwarding, Selective Call Rejection, Unidentified Call Rejection and Selective Distinctive Alert are not available on EBS lines.

9. CLASS features will only be offered in exchanges which meet the necessary technical specifications. In addition, the Company reserves the right to offer specific CLASS features only when and where technologically feasible.

C. CLASS Features

+Per Call Privacy will block the delivery of the subscriber's number/name for one call only and may be activated by dialing an activation code *67 from a Touch Tone telephone (1167 rotary dial) immediately prior to placing a call. The activation code will initiate Per Call Privacy, which is available at no charge. If the calling party activates Per Call Privacy, the directory number/name will not be transmitted across the line. Instead, Calling Number/Name Delivery customers will receive an anonymous or private indicator. This anonymous or private indicator notifies the Calling Number/Name Deliver customer that the calling party has elected to block the delivery of the telephone number/name.

Per Line Privacy will automatically block delivery of the subscriber's telephone number/name on all calls. Per Line Privacy for the delivery of the calling number/name is available upon request, at no charge, to the following entities and their employees/volunteers, for lines over which the official business of the agency registers with the Company a need for privacy:

- a. private, nonprofit, tax-exempt, domestic violence enforcement agencies
- b. federal, state and local law enforcement agencies

DEC 29 1997

ISDN - Integrated Services Digital Network¹

MISSOURI
Public Service Commission

A. Overview

Today's communications network involves many special networks, physical transmission facilities, and controllers of various types, including computers. ISDN provides integrated access to circuit-switched and packet-switched networks in which all the various needs of the independent networks can be accommodated by a single transport network that handles both voice and data traffic.

Conforming to the International Telecommunication Union-Telecommunication Standardization Sector (ITU-TS) [formerly International Telegraph and Telephone Consultative Committee (CCITT)] recommendations, ISDN is an integrated digital network providing end-to-end connectivity, and supporting a wide range of services. These services include voice and non-voice (that is, data), accessed by users through a set of standard multipurpose user-network interfaces.

Two interfaces defined in the ITU-T (formerly CCITT) recommendations govern the connectivity between switching equipment and customer equipment:

- o Basic Rate Interface (BRI)
- o Primary Rate Interface (PRI).

Both interfaces allow voice and data services simultaneously. Also, both are designed to support both circuit-switched and packet-switched connections.

The idea behind ISDN's single transport network is to provide a single communication interface for the customer so that terminal equipment can be plugged into an outlet as easily as a plain old telephone service (POTS) telephone is plugged in.

Today a business can use many independent networks with little or no interconnection between any of them. For each of these separate networks, there are separate staffs for Operations, Administration, and Maintenance (OA&M). Integrating or combining all these communications systems into one network with ISDN provides the user with economical communications and a network with interconnection and improved service.

B. Definitions and Descriptions

ACO - Additional Call Offering, is a feature that notifies the ISDN user through D channel signaling procedures that there is a circuit-switched voice (CSV) or circuit-switched data (CSD) call waiting. The user can answer the incoming call by putting an existing call on hold or by disconnecting an existing call.

BRI - Basic Rate Interface, The ISDN BRI combines two 64Kbps B channels and one 16Kbps D channel (2B+D) over one Digital Subscriber Line (DSL).

B Channel - Bearer Channel, A 64Kbps channel used to convey user information (voice/data); the BRI has two B channels and the PRI has 23.

BPS - Bits per second, A measure of the speed with which data communications can move over a line. The prefixes K (for thousand) or M (for millions) are used to represent higher speeds.

CA - Call Appearance of an ISDN PDN.

CFV - Call Forwarding Variable, see tariff Section 4 Call Forwarding.

CNI - Calling Number Identification, see tariff Section 4 Calling Number Delivery.

CSD - Circuit Switched Data, Data being sent over the circuit switched network similar to most voice calls.

CSV - Circuit Switched Voice, voice calls being sent over the circuit switched network.

D Channel - Delta Channel, The packet-switched channel on a DSL at 16Kbps, or an PRI at 64Kbps that carries signaling messages and packet-switched user data.

DN - Directory Number, the 10 digit telephone number consisting of the area code plus seven digits.

DS1 - the common terminology for T-carrier that multiplexes 24 channels into a single 1.544 million bits per second bit stream.

ISDN - Integrated Services Digital Network (continued)

REC'D NOV 25 1998

B. Definitions and Descriptions (continued)

DSL - Digital Subscriber Line, see BRI or PRI description.

EKTS - Electronic Key Telephone System, this feature allows a user served by an National Integrated Services Digital Network (ISDN) terminal to have access to multiple directory numbers (DNs). In addition, a DN can be accessed by more than one user (that is, a Shared DN). Directory Numbers (DNs) may be shared on the same ISDN basic rate interface (BRI) and/or on different ISDN BRIs. Two or more users with access to the same DN can be simultaneously bridged onto the same call on that DN.

FCO - Flexible Call Offering, the flexible call offering feature informs the called party that a transferred call is waiting. The called party begins alerting while the attendant is connected. (The attendant hears the alerting.) The attendant can disconnect any time after camp-on is activated, and the switch connects the calling party to ringing, tone, announcements, or silence (determined by the customer at subscription).

CACH - Call Appearance Call Handling, is an EKTS terminal which supports multiple call appearances and multiple DNs. One or more DNs and/or call appearances of the CACH EKTS terminal can be shared with other terminals in an EKTS group.

CSA - Customer Serving Area, the physical point where the customer serving facilities originate, normally the central office or digital subscriber cabinet.

ISDN - Integrated Services Digital Network, An international plan by the CCITT to standardize a public communication network to handle circuit switched digital voice, circuit switched data, and packet switched data.

IXC's - Interexchange Carriers, Long distance common carriers providing intraLATA and interLATA telecommunications services.

+Loudspeaker and Page Access Channel - An analog channel which interfaces digital ISDN service with analog customer CPE for the provision of Loudspeaker or Paging functionality.

GENERAL SERVICES

Missouri Public
Service Commission

REC'D NOV 25 1998

ISDN - Integrated Services Digital Network (continued)

B. Definitions and Descriptions (continued)

NFAS - Non Facility Associated Signaling, this feature allows the use of multiple PRI ISDN physical connections to deliver up to 479 B channels to a given location. NFAS is required when using more than one physical link or if an optional backup D channel is needed.

NID - Network Interface Device, The physical Demarcation Point (see Section 5 Demarcation Point) of Company provided outside plant facilities.

NT1 - Network Terminal 1, The CCITT label for ISDN network termination device which terminates the physical layer-1. This device is provided by the customer and is normally associated with the Terminal Adapter.

Packet Switching - A network technique that divides user messages into relatively short blocks and uses geographically distributed switching nodes, to achieve low end-to-end delay for real-time bursty data traffic.

PDN - Primary Directory Number, The number that is the unique identifier of an ISDN terminal.

PVC - Permanent Virtual Circuit, A virtual circuit established for the duration of an agreement between the subscriber and the network authority and is available to send packets in either direction at any time. It has all the features of a virtual call without the call setup and release procedures.

PRI - Primary Rate Interface, The ISDN PRI combines 23 B channels and one 64Kbps D channel on a single line. Also called the Extended Digital Subscriber Line.

RND - Redirecting Number Delivery, this feature provides information associated with call forwarded calls from an ISDN terminal. This display includes the redirecting number, and the reason for redirection. This information is sent to the ISDN terminal where the call is being forwarded.

SDN - Shared Directory Number, Shared directory number of an ISDN terminal.

SPID - Service Profile Identification, a unique number associated with a ISDN terminal device.

ISDN - Integrated Services Digital Network (continued)

MISSOURI
Public Service Commission

B. Definitions and Descriptions (continued)

T1 - T1 facility, a digital transmission standard in North America that carries traffic at the DS1 rate of 1.544 million bits per second.

Terminal Adapter - A device that provides protocol conversion from standard non-ISDN or TE2 interfaces (e.g., X.25, RS-232) to ISDN interfaces.

C. General

ISDN service will be provided where facilities and equipment are available. This tariff section does not obligate Mid-Missouri Telephone Company to construct facilities for the provision of this service. Mid-Missouri Telephone Company only provides ISDN connectivity within its exchanges and makes no warranties as to the interoperability of ISDN when using facilities of IXC's and other connecting carriers.

General Rules and Regulations found in other sections of this tariff are applicable to the provision of ISDN service.

Directory listings may be provided under the regulations governing the furnishing of listings for business and residence subscribers.

A Network Interface Device will be installed at a location determined by the Company. The Network Interface Device (NID) is the Company point of termination. The customer is responsible to provide the NT1 and all wiring beyond the NID.

D. Service Description

ISDN is offered in two different channel structures. The first is Basic Rate Interface (BRI), and the second is Primary Rate Interface (PRI). Both use channels called "B" or Bearer channels and "D" or Delta channel. The B channel provides a transmission path for user information, such as voice and data, while the D channel carries signaling information and packet data.

D. Service Description (continued)

Each B channel is a 64 kilobit per second (Kbps) clear channel connection. The D channel is a 16 Kbps packet channel that is used to send and receive call set-up and signaling messages to the terminal equipment (customer premises equipment), and carry limited packet data.

1. BRI - Basic Rate Interface

The BRI normally includes two B channels and one D channel (2B+D), however it can be configured to only include a D channel, or one D channel and one B channel. The BRI supports the following:

- Simultaneous data and voice communications
- Data channel rates up to 64 Kbps
- Message-based signaling, separate from the voice/data channels
- Reliable packet switched data transmission.

B-Channel

- 64 Kbps per channel
- Voice or data
- Circuit or packet-switched

D-Channel

- 16 Kbps
- Signaling messages and packet data
- Packet-switched
- Defined for customer usage

2. PRI - Primary Rate Interface

The basic PRI includes twenty three B channels and one D channel (23B+D), however it can be configured to include multiple D channels, and up to a maximum of 479 B channels. The PRI supports the following:

GENERAL SERVICES

DEC 23 1997

ISDN - Integrated Services Digital Network (continued)

MISSOURI
Public Service Commission

D. Service Description (continued)

2. PRI - Primary Rate Interface (continued)

- Non-Facility Associated Signaling (NFAS) - allows multiple DS1 facilities to be controlled by a single PRI D channel.
- PRI D-channel Backup (DCBU) - this capability can only be assigned to a NFAS group and allows a customer access to the network even if the "active" D-channel were to fail. This is accomplished by transferring signaling information to the "standby" D channel.
- Fractional DS1 Switching (N x DS0) Via PRI - allows a multibearer service capability by switching multiple rates of 64Kbps (i.e., N X DS0 - where N is greater than 2 and less than or equal to 24).
- Dedicated - the entire trunk group is dedicated to a specific service (data, 800 service, DID, etc.)
- Call-by-call - different types of service can be included in the same trunk group (IXC access, OUTWATS, DOD, etc.) Any call can be used for any service as long as there are available facilities (both B channels and service type) for the call.

B-Channel

- 64Kbps per channel
- Voice or data
- Circuit-switched
- Up to 479 channels per PRI (using multiple physical connections) defined as required for customer usage and where facilities permit.

D-Channel

- 1 required, 2 if optional back-up selected and more than one physical link is used.
- 64 Kbps per channel
- Control and signaling messages

PRI ISDN is usually provisioned using one or more T-1 facilities. The Facility Charge listed under Rates applies for each additional 1/4 cable mile from the serving central office or CSA.

E. Service Configurations

1. Basic Rate Interface

Capability Package A (0B+D), includes basic D-channel packet. No voice capabilities are provided.

Capability Package B (1B), includes circuit-switched data on one B channel. Data capabilities include Calling Number Identification. No voice capabilities are provided.

Capability Package C (1B), includes alternate voice/circuit-switched data on one B channel. Data and voice capabilities include Calling Number Identification.

Capability Package D (1B+D), includes voice on one B channel and basic D-channel packet. Only basic voice capabilities are provided with no features.

Capability Package E (1B+D), includes voice on one B channel and basic D-channel packet. This package provides non-EKTS voice features, including Flexible Calling, Additional Call Offering, and Calling Number Identification.

Capability Package F (1B+D), is equivalent to Capability Package E, with the change that Call Appearance Call Handling (CACH) EKTS service is used for the voice service. (Note that Additional Call Offering functionality is incorporated in the EKTS service).

Capability Package G (2B), includes voice on one B channel and circuit-switched data on the other B channel. This package provides non-EKTS voice features, including Flexible Calling, Additional Call Offering, and Calling Number Identification. Data capabilities include Calling Number Identification.

Capability Package H (2B), is equivalent to Capability Package G, with the change that CACH EKTS service is used for the voice service. (Note that Additional Call Offering functionality is incorporated in the EKTS service).

Capability Package I (2B), includes circuit-switched data on two B channels. Data capabilities include Calling Number Identification. No voice capabilities are provided.

1. Basic Rate Interface (continued)

Capability Package Q (2B+D), is equivalent to Capability Package P with the change that CACH EKTS service is used for the voice service. (Note that Additional Call Offering functionality is incorporated in the EKTS service.)

Capability Package R (2B), includes circuit-switched data on two B channels. Data capabilities include Calling Number Identification. No voice capabilities are provided.²

Capability Package S (2B), includes alternate voice/circuit-switched data on two B channels. Data and voice capabilities include Calling Number Identification.

Capability Package T (2B+D), includes voice on two B channels and basic D-Channel packet. Only basic voice capabilities are provided, with no features.

Capability Package U (2B), includes alternate voice/circuit-switched data on two B channels. This package provides non-EKTS voice features, including Flexible Calling, Call Forwarding Variable, Additional Call Offering, and Calling Number Identification (which includes Redirecting Number Delivery). Data capabilities include Calling Number Identification (which includes Redirecting Number Delivery).

Capability Package V (2B), includes alternate voice/circuit-switched data on two B channels. This package provides non-EKTS voice features, including Flexible Calling, Advanced Call Forwarding (i.e., Call Forwarding Variable, Call Forwarding interface Busy, Call Forwarding Don't Answer, and Message Waiting Indicator), Additional Call Offering, and Calling Number Identification (which includes Redirecting Number Delivery). Data capabilities include Calling Number Identification (which includes Redirecting Number Delivery).

² Capability Packages R and S are closely related to Capability Packages I and M; the main difference is that the Capability Packages R and S consistently assign two Directory Numbers to the interface, whereas the Capability Packages I and M only assign one.

GENERAL SERVICES

HUNT GROUP SERVICE +

Hunt Group Service+ enables a customer to receive incoming calls on more than one line listed under a single number. The feature of this special equipment, installed at the Central Dial Office, is that this equipment will hunt a line that is not busy and ring the customer over it.

The rate for Hunt Group Service+, per month, is \$6.00 more than the one-party rate per month. +

TOLL ACCESS RESTRICTION

Monthly Rate \$6.00

The service connection charges as set out elsewhere in this tariff also apply.

Toll Access Restriction provides a means of restricting access to the Long Distance Message Telecommunications Network by direct dial access.

The service may be provided to customers in exchanges equipped to program the service without alteration of the central office equipment. Toll access restrictions may be provided on access lines to PBX, ISDN, or Centrex service.

The customer indemnifies and saves harmless The Company from any and all claims, losses, and damages caused by the restriction to any services.

Toll Access Restriction is provisioned in three different configurations.

Basic Restriction – This restriction applies only to 1+ long distances calls; (0+/- operator calls will be handled as usual and will be billed accordingly). Basic Restriction does not block access to 911 emergency calls in areas that have implemented 911 services.

Basic PIN Restriction – This restriction is the same as Basic Restriction except the customer has the ability to dial *94 (1194 Rotary) and enter a 4 digit PIN code. Once the correct PIN code is entered the customer is given a second dial tone temporarily suspending Basic Restriction, allowing the customer to direct dial 1+ long distance calls.

Optional PIN Restriction – This restriction is the same as Basic PIN Restriction except that all 1+ and 0+/- calls are blocked and the customer must enter the correct 4 digit PIN code to be able to dial calls using the long distance message network. This restriction is only available in areas where 911 service is available.

+SERVICE ACCESS RESTRICTIONS - 900

+A. General

MO. PUBLIC SERVICE COMM.

Service Access Restriction is a central office service furnished to customers, upon request, which allows for access restriction to all telephone numbers preceded by 900 NPA from being placed over their exchange access line. When a 900 NPA telephone number is dialed, the call will be diverted to a Company-provided intercept announcement.

+1. Basic 900 Restriction

This restriction service enables customers to prohibit dialing of calls to 1+900. Calls which are placed using alternative dialing patterns cannot be restricted. This service is activated and deactivated in the telephone company central office. This service is provided free to our customers.

FOREIGN EXCHANGE SERVICE

MISSOURI
Public Service Commission

A. General Regulations

1. Foreign exchange service is exchange service furnished to a subscriber from a central office of an exchange other than the one that normally serves the area in which the subscriber is located.
2. For the purpose of this Tariff, the term, "Foreign Exchange", shall mean the exchange from which the foreign exchange service dial tone is furnished. The term, "Normal Exchange", shall mean the exchange normally serving the area in which the subscriber's premise is located.
3. Foreign exchange service does not come within the Telephone Company's general undertaking, nor does the Telephone Company obligate itself to furnish such service generally; but will do so where facilities of such a character are available as will permit satisfactory telephone transmission, and where the service is warranted by the circumstances involved.
4. Foreign exchange service will be furnished to exchanges within the same LATA as the normal exchange.
5. Foreign exchange service may be provided only in connection with private branch exchange trunk lines, and individual line business or residence service. The service will be furnished only at one premises for each channel or circuit.
6. Where the normal exchange is operated by this Telephone Company, foreign exchange service is furnished only on the condition that the applicant is a subscriber to individual line business or residence service, or private branch exchange service, in the normal exchange, and at the same location where such service is proposed to be installed. Under this condition, when a foreign exchange service subscriber discontinues normal

exchange service, the normal exchange shall immediately notify such foreign exchange subscriber and foreign exchange business office, that the foreign exchange service will be discontinued ten (10) days thereafter. MISSOURI Public Service Commission

7. Where the foreign exchange is operated by another telephone company, foreign exchange service will be provided only when satisfactory arrangements can be negotiated with such company to furnish a portion of the necessary facilities.

8. Foreign exchange service will be furnished at the rates outlined hereafter, provided the necessary facilities and equipment are available. Where the facilities and/or equipment are not available, and extraordinary facility costs, equipment costs, special operating expenses, and/or other special considerations are incurred in making such service available, the subscriber may be required to pay an additional charge to cover all or a portion of such unusual expenses, or be required to contract for service beyond the initial period, or both.

9.

No off premise extensions will be furnished in connection with foreign exchange service.

10. The use of the service is limited to the subscriber and his employees for business purposes, and in the case of residence service, to the members of his immediate household. Foreign exchange service calls will be further limited to calls within the local calling area (including any RAS locations) of the foreign exchange. If any customer to this service is found to be transferring or transmitting messages for parties other than authorized above, in the normal exchange area, and/or making toll calls through the foreign exchange, such subscriber and foreign exchange business office shall be notified that the practice must be discontinued or the foreign exchange service may be terminated ten (10) days after the date of such notice.

FOREIGN EXCHANGE SERVICE (Cont'd)

MISSOURI
Public Service Commission

B. Rates

1. Rates for foreign exchange service will include rates for local service at the foreign exchange and rates for private line service from the foreign exchange to the customer location in the normal exchange.
2. The charge for local service at the foreign exchange is the established monthly service rate, and non-recurring service connection charge of the foreign exchange for the grade of service (individual line business or residence, or PBX and PABX trunks) with which the foreign exchange service is to be associated. In addition, the applicable exchange mileage rate will apply where the subscriber's premises is located outside the Initial Rate Area boundary.
3. The charges for private line service from the foreign exchange to the customer location in the normal exchange will be as follows:
 - a. For private line facilities provided by this Telephone Company, the rates outlined in this Telephone Company's concurrence in the Oregon Farmers Mutual Telephone Company private line tariff will apply.
 - b. Where all or a portion of the private line facilities are furnished by another telephone company, charges for those facilities shall apply as specified in the regulations of such participating company.

FOREIGN EXCHANGE SERVICE (Cont'd)

4. Where the normal and foreign exchanges have continued within Exchange Area Boundaries, a foreign exchange service facility arrangement may be provided by a routing method other than using standard interexchange channel facilities. In all such special routing cases, however, the rates specified above will apply as if the standard interexchange channel facilities were used.

TIE-LINE AND EXTENSION MILEAGE

A. General

1. The charge for Extension Mileage applies to extension telephone equipment when it is located in a building other than the one where the main station equipment is located. The distance is computed between the building housing the main station equipment and the building housing the extension equipment.
- +2. The charge for Tie-Line Mileage applies to circuits furnished to the user for data, signals, etc., that the user may apply to the circuit for his own use.
- +3. For rules and regulations and rates other than mileage charges covering tie-line and extension lines, refer to the "Private Branch Exchange Service Off-Premises Stations and Tie-Lines" and "Extension Stations" sections of this Tariff.
- +4. The rates in this section apply, provided the necessary facilities are available. If facilities are not available, and unusual expenditures are involved in making them available, the customer may be required to pay an additional charge to cover the unusual expenditures or to contract for service beyond the initial period or both.

B. Extension Mileage

Monthly Rate

- (1) For each unit of 500 feet or fraction thereof, airline measurement. Per Unit.....\$.40
Minimum of one unit.

Original Sheet 64

GENERAL SERVICES

811 SERVICE

A. DESCRIPTION

811 Service is a three-digit abbreviated local dialing arrangement which allows local exchange end-users to reach the providers of Missouri's One Call Notification System (811 Customer). 811 Service is used by the One Call Notification system to provide notice of excavation activities to operators of underground facilities.

811 Service determines the central office serving the calling party, translates the dialed digits to an 811 Customer provided designated toll free telephone number, and routes the call to that number.

B. TERMS AND CONDITIONS

1. The Company and the 811 Customer will negotiate the installation date for the 811 Service.
2. There can be only one 811 Customer for each stand-alone, host, or remote central office NAP-NXX serving area.
3. The Company will route calls based upon the serving central office.
4. The 811 Customer must provide a toll-free number to the Company to ensure that toll charges are not incurred by the end-user. At all times it shall be the obligation of the 811 Customer to test and be aware of any translation errors or other mistakes in routing 811 calls to the customer provided toll free number.
5. 811 Service can only be accessed by end-users that subscribe to the Company's local exchange service. 811 Service will not complete calls dialed using 0 + 811 or 1 + 811. 811 calls are not permitted where local calling is restricted.
6. 811 Service does not include operator-assisted calls, and will only be available to PBX, Centrex, and Key switching systems when those systems have been correctly programmed. The Company does not undertake to perform, nor shall it be responsible, for such programming.

Section 4
Original Sheet 65

811 SERVICE (Continued)

7. 811 Service is provided as a community service. There will be no recurring or non-recurring charges for the service.

C. LIMITATION OF LIABILITY

1. 811 Service is provisioned solely for the benefit of the 811 Customer. The provision of such service shall not be interpreted, construed, or regarded as being for the benefit of or creating any obligation toward, or any right of action on behalf of, any third person or other legal entity, including but not limited to end-users of the Company or any other providers of telecommunications service.
2. The Company will make commercially reasonable efforts to route 811 calls to the toll-free number provided by the 811 Customer, however the Company will not be responsible, or held responsible, for routing mistakes and errors, interruptions of service, or intervening Acts of God or other acts that interfere with telephone service and/or routing. The Company's obligation under this 811 Service applies solely to the transmission of the call to the toll-free number provided, and ends upon translation of an 811 call to the Customer provided toll free number.
3. The Company does not undertake to transmit messages under the terms of 811 service.
4. The Company will have no liability for any damages arising from damages arising out of mistakes, omissions, interruptions, delays or errors or defects in transmission occurring in the course of furnishing 811 service.
5. The Company's failure to provide or maintain service shall be excused by government orders, civil commotions, acts of God and other circumstances beyond the Company's reasonable control.
6. The Company shall not be liable for any act or omission of any entity, and shall not be liable for any accident, injury to person or property, including death, libel, slander, infringement of intellectual property rights, nor shall the Company be responsible for any direct, indirect, incidental, special, consequential, exemplary, or punitive damages.
7. The 811 Customer shall defend the Company at the 811 Customer's expense, indemnify, and hold the Company harmless against any and all loss, claims, suits, or other action, or any liability whatsoever, whether suffered, made, instituted or asserted against the Company as directly or indirectly arising from the provision of 811Service.

Section 4
Original Sheet 66

GENERAL SERVICES

211 SERVICE

A. DESCRIPTION

211 Service allows the calling party to reach the 211 provider (211 Service Customer) by dialing an abbreviated telephone number, two-one-one (211).

211 Service is a routing service that determines the central office serving the calling party, converts the 211 dialed digits to a Customer-designated Routing Telephone Number (RTN) and routes the call over the telephone network to the RTN.

211 Service may only be purchased by information and referral providers authorized by the Missouri Public Service Commission in accordance with 4 CSR 240-32.200 of the Code of State Regulations.

211 Service is offered subject to the availability of facilities.

B. TERMS AND CONDITIONS

1. The 211 Service Customer must provide a copy of the order granting its authority as a Missouri Information and Referral Provider in the service area of the Company.
2. Unless otherwise authorized by the Missouri Public Service Commission, and technically feasible of implementation by the Company, there shall be no more than one 211 Service Customer for each stand-alone, host, or remote central office serving area. This assures that 211 calls from a calling party located within a 211 service area can be routed to the Information and Referral Provider certified for that service area. The Company will route calls based upon the serving central office. If a central office serves one or more remote offices or multiple states, the Company will route 211 calls based on the originating NPA-NXX. The Company will default route calls to one of the 211 Service Customer's routing Telephone Numbers if the Company is unable to route based on the serving central office or the originating NPA-NXX.
3. Only 211 calls originating within an operational 211 service area will be routed to a call center. End users dialing 211 outside operational 211 service areas will receive a recorded message that the call cannot be completed as dialed.
4. By subscribing to 211 Service under this tariff, the 211 Service Customer agrees to comply with all applicable federal and state laws and regulations.

Original Sheet 67

211 SERVICE (Continued)

5. The 211 Service Customer may designate only one Routing Telephone Number per 211 service area, but may designate different Routing Telephone Numbers for different service areas as set forth below. The Routing Telephone Number must be a toll-free 8XX telephone number for central offices outside of the 211 call center's local service area.
 - a. if the 211 Service Customer utilizes more than one 211 Routing Telephone Number, it must designate the specific stand-alone, host, or remote central office(s) to be served by each Routing Telephone Number.
 - b. Normally only one Routing Telephone Number can serve a stand-alone, host, or remote central office serving area.
 - c. 211 calls are not permitted where local calling is restricted, e.g., prisons.
6. The Company will route 211 calls originating from calling parties on the Company's local exchange network, whether the calling party is served by the Company or by another local exchange company reselling the Company's service. 211 Service will not complete calls dialed using 0 + 211 or 1 + 211. 211 Service does not include operator-assisted calls, and will only be available to PBX, Centrex, and Key switching systems when those systems have been correctly programmed. The Company does not undertake to perform, nor shall it be responsible, for such programming.
7. The Company will make commercially reasonable efforts to route 211 calls to the appropriate calling center. The Company will not be held responsible for routing mistakes or errors. The Company's obligation under 211 Service ends upon call completion to the Routing Telephone Number(s) designated by the 211 Service Customer(s). At all times it shall be the obligation of the 211 Service Customer to test and be aware of any translation errors or other mistakes in routing 211 calls to the appropriate calling center.
8. The Company does not undertake to transmit messages under the terms of 211 service.
9. 211 Service is provided as a community service. There will be no recurring or non-recurring charges for the service.

**SERVICE CONNECTION CHARGES
MOVES AND CHANGES**

JAN 15 1997

General

**MISSOURI
Public Service Commission**

The charges specified in this section for service connection charges, moves and changes do not contemplate work being performed by the Telephone Company employees involved in a time when overtime wages apply, due to the request of the customer, nor do they contemplate work once begun being interrupted by the customer. If the customer requests that overtime labor be performed or interrupts work once begun, an additional charge, based on the additional cost involved, applies.

Definitions of Service Connection Charges:

1. Service Order Preparation: The charge applied for each customer request for work performed by the Telephone Company in connection with the receiving, recording, record alteration and processing of customer service requests. A single charge is made for all services to be completed for the same subscriber at the same premises at the same time.
2. Line Connection: The charge applied for work done in the central office and/or outside plant facility associates with providing each access line (the line from the serving central office up to and including the station protector at the customer's premises), or making changes thereto.
3. Demarcation Point: The point of connection, provided and maintained by the telephone company, at which the station wiring becomes dedicated to an individual customer's use. For an individual customer dwelling this point of connection will generally be the modular jack incorporated into the customer side of the Network Interface Device (NID). The drop wire and the network protector will continue to be provided by, and remain the property of, the telephone company. The demarcation point is usually the point at which the telephone company wiring connects with the customer's wiring.

+Charges Do Not Apply (Special Provision)

MISSOURI
Public Service Commission

For customers displaced by the major flooding in the summer of 1993, service connection charges do not apply to the establishment of service at an interim location nor to the later re-establishment of service at the same or another location. This latter special flooding provision expires on December 31, 1993.

PRIVATE LINE TARIFF CONCURRENCE

RECEIVED

JUL 14 1993

Private Line Concurrence

The Company concurs in the rules and regulations governing intrastate intra-LATA interexchange Private Line Service as set forth in Oregon Farmers Mutual Telephone Company's tariff on file with and approved by the Public Service Commission of the State of Missouri, and in any amendments thereto as authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for private line service of Oregon Farmers Mutual Telephone Company. Rates for these services are set out in the following pages of this concurrence.

MO. PUBLIC SERVICE COMM.

Private Line Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, in whole or in part, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

Technical Trial of Distance Learning

In addition to the Private Line Services provided under the above concurrence, the Company also provides facilities for the Technical Trial of Distance Learning described below.

DESCRIPTION OF TRIAL

The Company is conducting a technical trial of a service called Distance Learning. This service will provide video connections between classrooms in different schools thus allowing a teacher to conduct a class in multiple locations at the same time. The Company will provide facilities only within its operating area as a part of this technical trial and will interconnect its facilities with the facilities of other Local Exchange Carriers as necessary to complete the trial. The technical trial will initially be tested at no charge.

The trial is scheduled to begin in 1993.

ACCESS SERVICES TARIFF CONCURRENCE

Access Services

Access services are those services which are described in the Access Services Tariff of Oregon Farmers Mutual Telephone Company. These services are offered by the Company to intrastate interexchange customers (ICs) in accordance with the rules and regulations specified in the Access Services Tariff of Oregon Farmers Mutual Telephone Company and approved by the Missouri Public Service Commission, and in any amendments thereto and authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for access services of Oregon Farmers Mutual Telephone Company. Rates for these services are set out in the following pages of this concurrence.

Provision of Services

The Company, to the extent that such services are or can be made available with reasonable effort, and after provisions has been made for the Company's telephone exchange services, will provide to an intrastate IC, upon reasonable notice, services of the type offered in Oregon Farmers Mutual Telephone Company's Access Services Tariff pursuant to the terms and conditions specified therein and at the rates specified in the following pages of this concurrence. The Company's concurrence in Oregon Farmers Mutual Telephone Company's Access Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company.

Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

DIGITAL LINK SERVICES TARIFF CONCURRENCE

JUL 15 1992

Digital Link Services ConcurrenceMISSOURI
Public Service Commission

The Company concurs in the rules and regulations governing intrastate intra-LATA interexchange Digital Link Service as set forth in Oregon Farmers Mutual Telephone Company's tariff on file with and approved by the Public Service Commission of the State of Missouri, and in any amendments thereto as authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for Digital Link Service of Oregon Farmers Mutual Telephone Company. Rates for these services are set out in the following pages of this concurrence.

Provision of Services

The Company, to the extent that such services are or can be made available with reasonable effort, and after provisions have been made for the Company's telephone exchange services, will provide to an intrastate IC, upon reasonable notice, services of the type offered in Oregon Farmers Mutual Telephone Company's Digital Link Tariff pursuant to the terms and conditions specified therein and at the rates specified in the following pages of this concurrence. The Company's concurrence in Oregon Farmers Mutual Telephone Company's Digital Link Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company.

Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

ENHANCED BUSINESS SERVICE

JUL 20 1992

+A. General

MISSOURI
Public Service Commission

- +1. Enhanced Business Services (EBS) is a service offering enhanced features on Business One Party Touch Button Local Exchange Access Lines. The service is limited to customers with a minimum of two access lines. EBS service is provided only in the exchanges and at locations where equipment and facilities are available.

+B. Conditions

- +1. Enhanced Business Service is offered in two different versions:

- +a. MVP - offered to customers - 2 to 6 lines.
+b. IBS - offered to customers - 6 to 75 lines.

For customers with over 75 lines, IBS will be provided on an individual case bases.

- +2. Customer premise equipment must be compatible with the services and equipment provided by the Company.
+3. The minimum charge for Enhanced Business Service shall be one month.
+4. Any combination of Enhanced Business Service features can be applied to access lines with an Enhanced Business Service Group, except those features that are mutually exclusive.
+5. One directory listing will be provided without charge for each EBS Service. Each additional listing will be provided as set forth in Section 4.

+C. Description of Service Features

+1. Basic Features

- +a. Direct Inward Dialing (MVP/IBS) - Calls to individual EBS lines may be dialed directly to the line from an outside line.

MISSOURI
Public Service Commission

+b. Direct Outward Dialing

+1. MVP - Calls to outside lines may be dialed using the standard calling sequence.

+2. IBS - Calls to outside lines may be dialed by dialing an access code and the standard calling sequence.

*c. Intercom Dialing (MVP) - This feature allows a MVP subscriber to call other members of the same customer group by using abbreviated dialing in lieu of the seven-digit number.

+d. Station to Station Dialing (IBS) - This feature allows an IBS subscriber to complete a call to other lines within the same IBS group by dialing the last one to four digits of the line number. The IBS customer selects the number of digits to be dialed.

+d. Touch Button Service - This feature provides multifrequency tones for customer dialing in lieu of dial pulses.

+D. Rates

+1. EBS service charges are in lieu of regular Business Access Line rates and Touch Button rates shown in Section 1 and Section 4 of this tariff, except as set forth in the following paragraph.

When used in conjunction with a key system(s), PBX(s) or any other equipment providing similar functionality, the charges set forth in the rate section will be in addition to normal access line rates as set forth in Section 1 and Section 4 of this tariff.

+2. Service Order and Line Connection charges are applicable as set forth elsewhere in this tariff.

Section 11
Original Sheet 2

BURIED FACILITIES FOR SUBDIVISIONS

1.1 INSTALLATION OF TELEPHONE LINES WITHIN SUBDIVISION (1) TELEPHONE
LINES CONSTRUCTED, INSTALLED AND OWNED BY UTILITIES IN SUBDIVISIONS
SHALL BE INSTALLED UNDERGROUND.

1.1.1 The following definitions are used in this section of the tariff:

APPLICANT: The developer, builder, or other person, partnership, association, firm, private or public corporation, trust, estate, political subdivision, governmental agency, or other legal entity recognized by law, applying for the construction of a telephone distribution system in a subdivision.

BUILDING: A single structure roofed and enclosed within exterior walls, built for permanent use, erected, framed of component structural parts and unified in its entirety both physically and in operation for single-family residential occupancy in a subdivision (Definition excludes mobile homes).

SUBDIVISION: A lot, tract, or parcel of land divided into two or more lots, plots, sites or other divisions for use for new residential buildings or the land on which is constructed new multiple-occupancy buildings per a recorded plot thereof if such recordation is required by law.

1.1.2 The Telephone Company upon receipt of the applicant's proper application will install an underground telephone system with suitable materials to assure that the applicant will receive reasonably safe and adequate telephone service. The provision of the underground telephone system will be provided at no charge except where a charge is permitted under Paragraphs 1.1.4 and 1.1.6 of this section of the Tariff. Temporary service is provided under Paragraph 1.1.5 of this section of the Tariff.

(1) This section is filed pursuant to and as required by the Commission General Order No. 55, ordered in Case 17519, effective January 23, 1973.

Section 11
Original Sheet 3

BURIED FACILITIES FOR SUBDIVISIONS

1.1.3 RIGHTS-OF-WAY AND EASEMENTS

- JAN 25 1977
- A. Within the applicant's subdivision, the Telephone Company will construct, own, operate, and maintain underground telephone lines only along public streets, roads, and highways which the Telephone Company has the legal right to occupy, and on public lands and private property across which rights-of-way and easements satisfactory to the Telephone Company may be obtained without cost or need for condemnation by the Telephone Company.
- B. Rights-of-way and easements, within the subdivision, satisfactory to the Telephone Company, must be furnished by the applicant in reasonable time to meet construction and service requirements before the Telephone Company shall be required to commence its installation. Such rights-of-way and easements must be cleared of trees, tree stumps, and other obstructions and graded to within six inches of final grade, by applicant, at no charge to the Telephone Company. Such clearance and grading must be maintained by the applicant during construction by the Telephone Company.

1.1.4 ADVANCE PAYMENTS

- A. Where, due to the manner in which a subdivision is developed, the Telephone Company is required to construct an underground telephone distribution system through a section or sections of the subdivision where service will not be connected for at least two years, then the Telephone Company may require an advance payment equal to the estimated cost of construction from the applicant before construction is commenced, if in the judgment of the Telephone Company an advance is required under the above described conditions, the Telephone Company has the right to refuse installation of the underground system until the required advance is paid to the Telephone Company.

of canceling this tariff.

Section 11
Original Sheet 4

BURIED FACILITIES FOR SUBDIVISIONS

1.1.4 ADVANCE PAYMENTS (Continued)

- 1671 25 1077
- B. If an advance is required under these rules, then the advance, without interest, shall be returned to the applicant on a pro-rata basis as the permanent service connection is made to each building or multiple-occupancy building.
- C. Any portion of an advance remaining unrefunded ten years from the date the Telephone Company is first ready to render service with the extension will be retained by the Telephone Company and credited to the appropriate construction account.

1.1.5 TEMPORARY FACILITIES

- A. Temporary facilities may be installed to provide service when necessary, for a maximum period of one year.
- B. Where it is necessary to place temporary facilities in advance of the permanent underground telephone system in order to provide telephone service, the Telephone Company may require the applicant to pay the estimated non-recoverable costs of the temporary facilities. If the required costs under the above described conditions apply, the Telephone Company has the right to refuse installation of the temporary facilities until the required costs are paid to the Telephone Company.

1.1.6 SPECIAL CONDITIONS

- A. In circumstances, where the application of these rules appears impracticable or unjust to applicant or the Telephone Company, or discriminatory to other customers, e.g., difficult rock conditions, the Telephone Company or applicant shall refer the matter to the Missouri Public Service Commission for special ruling or for the approval of special conditions which may be mutually agreed upon prior to commencing construction.
